Contents

Preface 11
Abbreviations. 15

Chapter One
Introduction: Technology and Law 17
1.1. Understanding Technology 19
1.2. Underlying Logic: Computational Logic 22
1.3. Computations Meet Law: Computational Law. 23
1.4. Future: Applying Computational Law and Thinking Differently 24
1.5. The Design of this Book 25
1.6. Goals of this book 26

Part I From Computations to Computational Law

Chapter Two
Computations, History of Computers and the Basics of Computing. 31
2.1. Building Computers 33
2.1.1. University Scholars Helping to Win the War 33
2.1.2. A Computer Is Not Only For Computing 36
2.1.3. Computers meet Public 38
2.2. Foundations of Computing 40
2.2.1. Computation 42
2.2.2. From Numbers to Symbols and Sets. 43
2.2.3. Sequences 44
2.2.4. Functions and Relations 45
2.2.5. Alphabet, string, and language 45
2.2.6. Boolean Algebra 46
2.2.7. Switching from Boolean Algebra to Computers. 49
2.2.8. Working with Bytes 50

2.3. Software 51
2.3.1. The Early Years of Software 51
2.3.2. First Software Developers 52
2.3.3. Difference between Program, Programming Language and Software 53
2.3.4. Building Abstraction: from "Paper Language" to First Programming Languages stored on Punched Cards 55
2.3.5. Programming Languages of Today 56
2.4. Summary 56

Chapter Three
Computational Logic, Thinking and Law 59
3.1. Computational Logic 60
3.1.1. From Ancient Logic to Computational Logic 61
3.1.2 Building Arguments: Logic and Persuasiveness 63
3.1.3 Computational Logic & Automating 65
3.2. Computational Thinking 70
3.2.1. Defining Computational Thinking 70
3.2.2. Computational Methods 73
3.3. Computational Law 74
3.3.1. Applying Computational Methods to Law 76
3.3.2. Addressing the Risks of Computational Law 79
3.3.3. Computational Science as a Part of Computational Law 81
3.4. Summary 83

Part II Elements of Computational Law

Chapter Four
Legal Design Thinking 89
4.1. Bringing Creativity to Lawyers 90
4.1.1. Defining Creativity 92
4.1.2. Where Do Ideas Come From? 92
4.1.3. Creativity in Law 93
4.2. What is Legal Design Thinking? 94
4.2.1. Design Thinking 95
4.2.2. From Design Thinking to Legal Design 97
4.2.3. Legal Design Thinking 97
4.2.4. Design Thinking Process for Lawyers 100

4.3. Case Studies 104
4.3.1. Improving the Design of Contracts 104
4.3.2. Improving Access to Law 106
4.4. The Mindset for Legal Design Thinking 106
4.4.1. Legal Design Thinking as Inherent Part of Legal Thinking. 108
4.4.2. Legal Design as a Start-up within the Law 109
4.5. Toolbox for Legal Design Thinking. 109
4.6. Summary and Few Reflections on Legal Design and Universal Design 111

Chapter Five
Algorithms. 115
5.1. What Is an Algorithm?. 116
5.1.1. Elements. 119
5.1.3. What Makes an Algorithm an Algorithm? 121
5.1.4. Algorithm Efficiency 123
5.2. Logic(s) for Algorithms 124
5.2.1. Propositional Logic 125
5.2.2. Valuation 129
5.2.3. Meaning of 'Algorithmic' & Computability Theory. . . 130
5.2.4. Algorithmic Logic 131
5.3. Algorithm Law 132
5.3.1. Existing Regulation of Algorithms 134
5.3.2. Algorithmic Transparency. 137
5.3.3. Algorithmic Bias 139
5.4. Legal Algorithms 140
5.5. Summary 141

Chapter Six
Automation and Artificial Intelligence 145
6.1. Automation 146
6.1.1. Automated v. Autonomous 146
6.1.2. How Does the Automation Work? 149
6.1.3. Limits to Automation 151
6.2. Artificial Intelligence 152
6.2.1. The Emergence of AI 154
6.2.2. Predicate Logic 156
6.2.3. Heuristic Search. 160
6.2.4. Addressing Uncertainty in AI 161
6.2.5. Taxonomy of Artificial Intelligence 163

6.3. Artificial Intelligence Law 165
6.3.1. Legal Definition of AI 167
6.3.2. Regulating AI 169
6.3.3. AI Regulation in the EU 172
6.3.4. AI Regulation in the US 173
6.4. Summary 175

Chapter Seven
Machine Learning, Deep Learning and Natural Language Processing 177
7.1. Machine Learning 179
7.1.1. Teaching a Computer to Think and Learn: Relevance of Cognitive Science 180
7.1.2 Machine Learning as a Field of Research and Practice 183
7.1.3. Linear Regression 186
7.1.4. Decision Trees 187
7.1.5. Legal Requirement for "Explainability" 188
7.2. Deep Learning 188
7.2.1. Mathematical Model 189
7.2.2. Artificial Neural Networks 191
7.3. Natural Language Processing 193
7.3.1. From Linguistics to NLP 195
7.3.2. Natural Language as s System 196
7.3.3 The Current Limits of NLP 200
7.4. Summary 201

Chapter Eight
Data 205
8.1. Data Science 206
8.1.1. What Are Data? 207
8.1.2. What is Data Science? 209
8.1.3. Data Abstraction: Data are Always Partial and Biased 211
8.1.4. Preparing the Data 212
8.2. Data Science Techniques 213
8.2.1. Statistics 214
8.2.2. Machine Learning in Data Science 216
8.2.3. Data Mining 218

8.3. Importance of Data in Law 218
8.3.1. Why Do We Need to Protect Data? 220
8.3.2. Data Protection in the European Union. 223
8.3.3. Data Protection in the United States 226
8.4. Summary 228

Chapter Nine
Distributed Ledger Technology: Blockchain 231
9.1. Blockchain Explained 234
9.1.1. Blockchain: Distributed, Decentralised Database . . . 235
9.1.2. Creating the chain 236
9.1.3. Essential Technology behind Blockchain 237
9.1.4. Limitations of Blockchains. 241
9.2. Blockchain: A Rule of Code 243
9.2.1. Re-designing Financial Infrastructure 245
9.2.2. DAO: Re-designing Corporate Infrastructure 248
9.3. Regulating DLT 249
9.3.1. Wyoming 251
9.3.2. European Union 254
9.4. Summary 256

Part III Legal Tech: Application of Computational Law in Legal Industry

Chapter Ten
Legal Tech and Future of Legal Industry 261
10.1. Introducing Legal Tech 262
10.1.1. History of Legal Tech 264
10.1.2. The Need to Audit and Test Legal Tech 266
10.2. Current Developments in the Legal Tech 267
10.2.1. Automation in Legal Tech. 270
10.2.2. AI in Legal Tech 271
10.2.3. NLP in Legal Tech 272
10.2.4. Data in Legal Tech 275
10.2.5. DLT in Legal Tech. 276
10.2.6. Humans in Legal Tech 277
10.3. New Skillset for Lawyers – Three Cs 277
10.3.1. Communication. 280
10.3.2. Collaboration. 281
10.3.3. Creativity 282

10.4. The Future of the Legal Industry 283
10.4.1. The Future is Digital 283
10.4.2. Lawyers Will Become Technology Designers and Technology Auditors 284
10.4.3. Lawyers Will Not Be Substituted, but They Can Be Replaced by Other Lawyers 285

Registry 287
